Makassar, South Sulawesi, Indonesia

Informatics Engineering graduate from Hasanuddin University with a GPA of 3.66/4.00. Certified Cloud Computing graduate from Bangkit Academy (Google) with strong expertise in Full Stack Development and Artificial Intelligence. Proven experience in deploying scalable applications using Google Cloud Platform and building responsive web interfaces using React.js. Successfully secured government funding (P2MW) for an EdTech startup project and implemented an AI-based vehicle classification system for thesis research. Eager to contribute technical skills in cloud architecture and software engineering.

Experiences

Hasanuddin University (Thesis Project) - Makassar, Indonesia

May 2025 - Present

Fullstack Developer & Researcher

- Developed an automated vehicle classification system for hybrid toll gates at PT Margautama Nusantara (Makassar Toll Road) using Computer Vision to enhance operational efficiency.
- Engineered the backend logic using Python and Flask to process real-time image data and implement Deep Learning algorithms.
- Built an interactive web-based dashboard using React.js for real-time traffic monitoring.
- Tech Stack: Python, Flask, React.js, Computer Vision, Artificial Intelligence.

PT Samudera Indonesia Tbk. - Makassar, Indonesia

Oct 2024 - Feb 2025

Web Developer Intern

- Develop a web-based financial reporting system, streamlining internal reimbursement processes.
- Built a responsive user interface using React.js and a scalable backend infrastructure using Firebase.
- Implemented a multi-user access system with three distinct authorization levels to secure the approval workflow.
- Tech Stack: React.js, Firebase, Web Development.

EduSensei - Ministry of Education (P2MW Grant) - Makassar, Indonesia

May 2024 - Nov 2024

Frontend Web Developer

- Secured competitive funding from the Ministry of Education (Kemdikbud) through the P2MW entrepreneurship program.
- Created a responsive web layout to visualize educational content as an engaging alternative to traditional learning videos.
- Tech Stack: React.js, Web Development, Motion Tracking.

Bangkit Academy led by Google, GoTo, & Traveloka - Indonesia (Remote)

Feb 2024 - Jul 2024

Cloud Computing Cohort

- Led the cloud infrastructure for "SkinScan", an AI-powered skin disease detection app.
- Deployed machine learning models to Google Cloud Platform (GCP) and managed cloud resources to ensure scalability.
- Tech Stack: Google Cloud Platform (GCP), Cloud Run, API Deployment.

Education

Hasanuddin University - South Sulawesi, Indonesia

Aug 2021 - Dec 2025 (Expected)

Bachelor of Engineering in Informatics Engineering, 3.66/4.00

- Relevant Coursework: Artificial Intelligence, Web Development, Cloud Computing, Data Structures & Algorithms.

Organisational Experience

Himpunan Mahasiswa Informatika FT-UH (HMIF FT-UH)

Aug 2023 - Jun 2024

General Secretary

- Managed organizational administration and correspondence for over 500 active students.
- Coordinated effectively with the Chairman to oversee internal divisions and ensure the execution of work programs.
- Acted as the functional leader and decision-maker when the Chairman was unavailable.

Skills, Achievements & Other Experience

- Technical Skills:** Python, JavaScript, SQL, React.js, Flask, Flutter, HTML/CSS.
- Cloud & Tools:** Google Cloud Platform (GCP), Firebase, Docker, Git, GitHub.
- Areas of Interest:** Computer Vision, Artificial Intelligence, Machine Learning, Web Development.
- Language:** Indonesian (Native Speaker), English (Professional Working Proficiency - TOEFL: 557)
